

Meritor Part

Meritor Parts - Meritor is a leading international supplier that is proudly founded on a 100 year tradition of service and quality. They specialize in various modules, integrated systems and parts to original machinery makers and the aftermarket for the transportation and industrial sectors.

Meritor values the requirements of their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their international operations. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred people, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

By only employing future focused staff, Meritor strongly believes these top-caliber people will be able to quickly get used to to changing surroundings and demonstrate the performance and commitment needed to be able to reach results in the competitive materials handling market. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers their employees various opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, braking and suspension systems intended for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the requirements of their international engineering personnel.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located around the globe in 19 countries and in 5 different continents.

The supplier development network is particularly situated in order to support new business growth. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in every part of the company. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean techniques.
