

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment could automatically activate to both dump and release as the bumper release contacts the side of a dumpster. After dumping is finished, the hopper is able to return to original upright and locked position. This piece of machinery even comes along with a cable that enables operation from the seat of the lift truck in order to have the choice of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the tine truck. This product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
