

Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in commission in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specialized components designed for 20 unique brands of lift trucks and automated equipment. Your regional Clark Seller is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark features a phenomenal Parts Supply team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is now a standard feature on every forklift.

Clark's recurrent goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the globally accepted quality standard ISO 9001 for each and every one of their production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a dominant market position.

Clark has preferred the very economical and beneficial system of "Lean Production" for its assembly plants and application of resources. This structure was established to acknowledge the most efficient approaches of production plant management and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The new value engineering program combines innovative product development and delivers improved client support and service within the industry.
